Abstract

*This study examines the semiotic meanings in Michael Jackson's music videos *Leave Me Alone*, *Earth Song*, and *Heal the World* using Ferdinand de Saussure's theory of the signifier and the signified. Through a qualitative descriptive method, the research analyzes lyrics and visual elements to uncover symbolic messages related to media criticism, environmental issues, and global unity. The findings reveal that each video conveys powerful social and emotional narratives: *Leave Me Alone* critiques celebrity culture, *Earth Song* protests environmental destruction, and *Heal the World* promotes peace and compassion. These videos function as visual texts that reflect social realities and serve as tools for cultural communication.*

Keywords: semiotics, music video, Michael Jackson, symbolism, social message

Abstrak

*Penelitian ini mengkaji makna semiotik dalam video musik Michael Jackson berjudul *Leave Me Alone*, *Earth Song*, dan *Heal the World* dengan menggunakan teori tanda Ferdinand de Saussure, yaitu signifier (penanda) dan signified (petanda). Melalui metode deskriptif kualitatif, penelitian ini menganalisis lirik dan elemen visual untuk mengungkap pesan simbolik yang berkaitan dengan kritik terhadap media, isu lingkungan, dan persatuan global. Temuan penelitian mengungkapkan bahwa setiap video menyampaikan narasi sosial dan emosional yang kuat: *Leave Me Alone* mengkritik budaya selebriti, *Earth Song* memprotes kerusakan lingkungan, dan *Heal the World* mendorong perdamaian serta kasih sayang. Ketiga video ini berfungsi sebagai teks visual yang merefleksikan realitas sosial dan menjadi alat komunikasi budaya.*

Kata Kunci: semiotik, video musik, Michael Jackson, simbolisme, pesan sosial

1. INTRODUCTION

Semiotics, as the study of signs and meaning, provides a significant analytical framework for examining visual elements in music videos. According to (Saussure in Yakin & Totu, 2014), a sign is composed of two key components: the signifier (the physical form) and the signified (the conceptual meaning). Their relationship is arbitrary and shaped by social conventions. In music videos, visual components such as imagery, color, and movement function as signs whose meanings are influenced by cultural and social contexts. (Max and Utomo, 2021) argue that music videos generate meaning through symbolic codes distinct from conventional film, combining visual and audio elements to express emotional and social messages. For instance, the color red may symbolize love or anger depending on cultural associations, while a bird may represent either freedom or entrapment.

Music videos can also be considered a form of visual literature. (Trihastutie, 2023) and (Verkerk et al. 2023) note that literature is not limited to written texts but may include visual expressions that convey emotion and symbolism. (Klarer, 2023) highlights that literary works and by extension, music videos can reflect deep human experiences and social concerns. (Jirsa and Korsgaard, 2019) describe music videos as a hybrid audiovisual narrative that conveys stories through emotional and symbolic means. Similarly (Way, 2019) emphasizes the role of music videos as a tool for political communication, effectively delivering social messages through engaging and symbolic visual formats.

Michael Jackson's music videos exemplify how visual art can be a medium for social critique. In *Leave Me Alone*, Jackson employs symbolic imagery such as himself being trapped inside a giant machine to illustrate media intrusion and manipulation. *Earth Song* depicts environmental destruction and human suffering, calling for ecological awareness and responsibility. Meanwhile, *Heal the World* uses images of children from diverse backgrounds to symbolize hope, compassion, and global unity. Through semiotic analysis, Jackson's works reveal complex narratives around identity, injustice, and environmental crises. The fusion of music and visuals in his videos delivers messages that resonate emotionally and socially. Despite their cultural influence, academic research on the semiotic aspects of Jackson's music videos remains limited. This study, titled *Semiotic Analysis of Michael Jackson's Music Videos: Leave Me Alone, Earth Song, and Heal the World*, seeks to examine how visual elements such as symbolism, imagery, and cinematographic techniques convey meaning. Treating music videos as a modern literary form, the research aims to demonstrate how popular art serves as a medium for cultural communication and social commentary. This study will also explore intertextuality in Jackson's work, including references to historical events, classical literature, and cinematic

influences. As such, music videos may be viewed as a form of contemporary narrative that delivers profound messages reflecting the conditions of modern society.

2. METHODOLOGY

Research is a fundamental academic activity aimed at understanding various phenomena and contributing to the advancement of knowledge. It is generally divided into two main categories: Quantitative Research, which involves the use of numerical data and statistical analysis, and Qualitative Research, which focuses on words, meanings, symbols, and interpretations. In this study, the researcher employed a Qualitative Research approach to explore the signs and symbols found in Michael Jackson's music videos. The main objective of this approach is to gain a deeper understanding of the messages conveyed through visual and lyrical elements.

According to (Creswell, 2017), qualitative research emphasizes understanding meaning from the perspectives of individuals or groups experiencing certain social issues. The data used in this study are in the form of phrases or sentences that contain semiotic values. These phrases and sentences are taken from song lyrics, visual elements in music videos, and symbols that appear throughout the video. To enhance the analysis, additional information was collected from relevant sources such as academic journals, books, and critical reviews related to Michael Jackson's works and semiotic theory. After the data were compiled, the researcher proceeded with a systematic analysis using a semiotic framework to interpret how the signs and symbols construct specific meanings, and how these are potentially understood by viewers.

4. CONCLUSIONS

Through a qualitative semiotic approach, this study reveals how Michael Jackson's music videos *Leave Me Alone*, *Earth Song*, and *Heal the World* serve as rich visual texts that communicate powerful social, political, and environmental messages. By analyzing the signifiers and signifieds in both lyrical and visual elements, the research uncovers layers of meaning shaped by cultural, ideological, and emotional codes. Each video demonstrates how Jackson uses symbolism, imagery, and narrative structure to critique fame, raise ecological awareness, and advocate for global unity. The findings affirm that music videos can function as a form of modern literature and political discourse, conveying profound critiques of society through emotionally resonant and symbolically dense audiovisual storytelling.
